

Customizable and Configurable, Attendance Advisor Adapts to Your Attendance Policy.

Attendance Advisor
Automated Attendance Policy Administration

**Get Automated Tabulation of Data
and Get Easy Data Entry**

Attendance Advisor is a product of Points North

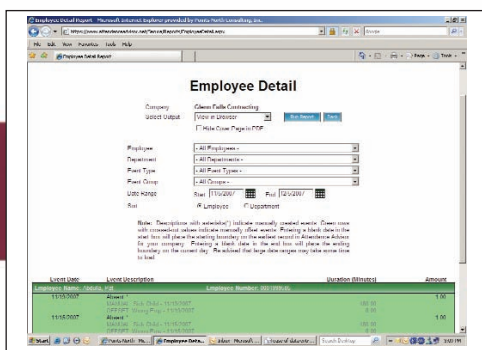

An Effective Way to Communicate Attendance Information to Employees Means Less Busy Work for HR

The web-based design offers multiple levels of security, and allows employees, supervisors and administrators access to the attendance information appropriate to their level.

- ◆ Fully automated and customized reward and disciplinary notices streamline employee communication.
- ◆ Your staff can spend far less time tracking down attendance information because every employee can have online access.
 - Factory workers who can access their own attendance information have demonstrated better attendance than those who can't.

Laborious and costly manual tasks are reduced to a keystroke

Attendance Advisor will save you time and labor by streamlining your attendance policy administration, and with its accurate reporting, reduce grievances and help you avoid penalties.

Stories from Three Customers

"We've used Attendance Advisor for three years now, and it has saved us an immense amount of time over our old manual attendance tracking methods.

The system is very easy to use and we get reports in an instant. If we ever have questions, the Attendance Advisor staff calls us right back and they are extremely helpful. It's a big plus knowing someone at Attendance Advisor is assigned to help us."

– US Manufacturing, Warren, MI

"Points North was able to take our very complex points system and automate it for us. We have saved countless hours of manual tracking. Whenever we modify our internal points system, Points North modifies our program and gets the update to us in a hurry."

– CresCor, Mentor, OH

"The Attendance Advisor has saved time. I do not miss the manual recording of the attendance. Attendance records are updated earlier than before. Therefore, the warnings are issued to employees sooner. I like everything about the program. I would not want to ever go back to the old way."

– HCC Inc., Mendota, IL

So Much Depends Upon Accuracy. With Automation, Errors are Eliminated.

Your most expensive asset - employee time - means a lot. You want to get the most out of your investment in labor, and your employees want to be fairly rewarded for it. Every time an employee punches in or out on the time clock, there is an unspoken contract between you both that time will be tracked with accuracy.

The larger your workforce, the more likely you are to have attendance-based rewards and disciplines that give employees incentive. You may also have government or union reporting obligations that penalize inaccuracy.

That's a lot to track by hand. But even if attendance is automatically tracked, you're probably investing considerable employee hours just to generate the reports you need. "Make do" systems can be administratively difficult, time consuming, and incapable of dealing with varied attendance rules, much less generating the reports you need.

It's a situation ripe for costly human error and a lot can go wrong. Imagine getting all of it right. With Attendance Advisor, you can.

Attendance Advisor is a product of Points North, a nationally recognized software leader in data integration and productivity enhancement solutions.

POINTS NORTH

Mistakes in employees' attendance records can lead to incorrect attendance bonus payments, missed or unnecessary disciplinary actions, and government or union penalties, not to mention lower employee morale.

Call Points North today.

We look forward to hearing from you and responding to your inquiry.
